

Mission Statement

***“Our mission is business growth and customer satisfaction.
Quality service is necessary to achieve these goals.
Each employee is the source of quality.”***

We want to thank you for your interest in Lincoln Machine. Our employees are very talented. They have a total of over 590 years of experience. Since 1972 Lincoln Machine has built its exceptional reputation through your satisfaction. Lincoln Machine is large enough to handle your metalworking and design needs, but not so large that you lose that individual touch. We know that your work is important. We are very proud of our teamwork and our commitment to quality. Our talented craftsmen would like the opportunity to work with you and show you the superior service we provide.

Again, thank you,

Linda Lichtenberg
